

How to Clean Madras

Performance Fabric with a PFAS Free Soil and Stain Repellent Finish

This fabric has a **W** cleaning code:

Water-based cleaning agents and foam may be used for cleaning. Cleaning by a professional cleaning service is recommended.

Recommended Care and Cleaning Guide:

- To prevent overall soiling, frequent vacuuming or light brushing to remove dust and grime is recommended.
 - Spilled liquids bead up on the fabric surface and can simply be blotted up.
 - Water based stains that have been allowed to dry can be removed by using an upholstery shampoo or mild detergent and water solution and a soft thistled hand brush.
 - Oil based stains can be cleaned using a solvent or dry cleaning products. Follow instructions carefully and clean only in a well-ventilated room.
 - With either method, pre-test a small area before proceeding.
 - More severe stains and general cleaning should be handled by professional cleaners.
-

Bleach Cleanable

This fabric may also be **SPOT** cleaned with a solution of 90% water and 10% bleach. Stains can be addressed by **SPOT** cleaning only as the bleach residue will need to be **FULLY** removed to prevent degradation of the fabric over time. Always test any cleaning method or cleaning agent on an inconspicuous area on the panel system.

Cleaning information is offered for general guidance and is not a guarantee. The use of certain cleaning agents can be harmful to the surface appearance and lifespan of a product. Burch Fabrics assumes no responsibility for damage to a product resulting from lack of cleaning, improper cleaning or the misuse of cleaning agents. Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to materials and cause permanent damage. Burch Fabrics cannot be held responsible for dye transfer caused by external contaminants.
