

How to Clean Reverb

High Performance Vinyl with Forbid SRT™

Forbid dramatically increases stain resistance while preserving the integrity of the material's luster and softness. Prompt cleaning is always recommended.

Recommended Care and Cleaning Guide:

Cleaning Method	Staining Agent							
	Dirt	Pen	Sharpie®	Paint	Ketchup Mustard	Lipstick	Nail Polish	Denim Dye
Method 1:	X	X						X
Method 2:	X	X			X	X		X
Method 3:		X	X	X	X	X	X	X

Method 1: For most common stains and spills, use mild soap and water.

Method 2: If Method 1 doesn't work, use the following household items: Fantastic® / Formula 409® / Mr. Clean®.

Method 3: For tougher stains such as Sharpie®, paint, and denim dye, use a 70% isopropyl alcohol wipe.

This vinyl can also be cleaned with a 80% water / 20% bleach solution.

After each cleaning method, rinse area with clean water then dry with a clean, lint-free cloth. Failure to remove chemical residue may cause discoloration to the coated fabric surface and may attract more dirt and bacteria.

The above care guide addresses the performance of Forbid products as indicated in product testing, conducted under laboratory conditions. Results may vary under actual conditions.

Forbid is resistant to most common stains, however, existing dyes and pigments in some staining agents have been seen to create a permanent stain if not properly treated in a timely manner.

Fantastik® is a registered trademark of DowBrands, Inc.®, registered trademark of the Dow Chemical Co® • Formula 409® is a registered trademark of the Clorox Company®
Mr. Clean® is a registered trademark of Procter and Gamble® • Sharpie® is a registered trademark of Sanford, LP

Cleaning information is offered for general guidance and is not a guarantee. The use of certain cleaning agents can be harmful to the surface appearance and lifespan of a product. Burch Fabrics assumes no responsibility for damage to a product resulting from lack of cleaning, improper cleaning or the misuse of cleaning agents. Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to materials and cause permanent damage. Burch Fabrics cannot be held responsible for dye transfer caused by external contaminants.
